

Pronunciation in American English

by Kathy L. Hans

"Tune in to the music of English"

This program provides a unique focus on how to identify and use the most important elements of pronunciation:

Stress, Intonation & Rhythm

Pronunciation in American English is perfect for

Self Study:

individualized self-paced learning at home

Pronunciation Courses:

Integrated for self-practice with instructor

"This course has definitely given me the ability to recognize my pronunciation defects... the science behind it was made much clearer. It is superb multimedia software with a good flow of the subject. I would recommend all nonnative speakers to undertake this course and see the difference for yourself."

-Sunil Chitnis, Software Engineer

"The audio guide for intonation and stress is very helpful. I especially like the Intonation and Rhythm chapters... I would absolutely recommend this to my friends."

-PhiDien Nguyen, Software Engineer

Pronunciation in American English Improves Pronunciation Skills

This multimedia program improves pronunciation skills for nonnative speakers of English at the intermediate level and above. The CD has over 68 interactive lessons and practices with the following:

- **Video Presentation**
- to introduce the concepts

- **Audio Lessons**
- to model the pronunciation

- **Written Activities**
- to reinforce the practices

- **Record and Playback**
-to encourage practice/self correction

- **Workbook**
- printable version of all practices

- **Pre-and Post-Assessment**
-audio files saved for comparison
